To amend and reenact R.S. 49:155(A) and (B), relative to state symbols; to designate “Southern Nights” by Allen Toussaint as the official state cultural song; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. R.S. 49:155(A) and (B) are hereby amended and reenacted to read as follows:

§155. State song

A. The official state song for the State of Louisiana shall be a musical composition with words and music by Dotrice Fontane, entitled “Give Me Louisiana”; the words reading as follows:

\[
\text{Give me Louisiana,}
\]

The state where I was born

The state of snowy cotton;

The best I’ve ever known;

A state of sweet magnolias

And creole melodies

Oh give me Louisiana;

The state where I was born

Oh what sweet old mem’ries

The mossy old oak, brings us the story of our Evangeline

A state of old tradition;

Of old plantation days

Makes good old Louisiana

The sweetest of all states.

Give me Louisiana;

A state prepared to share

That good old southern custom;

Hospitality so rare;

A state of fruit and flowers,

Of sunshine and spring showers

Oh give me Louisiana;

The state where I was born

Its woodlands, Its marshes

Where humble trappers live

He rivers, He valleys,

A place to always give

A state where work is pleasure;

With blessings in full measure

Makes good old Louisiana

The dearest of all states.

Give me Louisiana;

Where love birds always sing

In shady lanes or pastures,

The cowbells softly ring;

In the trees

Like this and many others

Southern nights

Whistling tunes that you know and love so

Just as good even when closed your eyes

I apologize

To any one who can truly say

That he’s found a better way

Southern skies

Have you ever noticed southern skies?

It’s precious beauty

Lies just beyond the eye

It goes running through the soul

Like the stories told of old

Old man

He and his dog that walk the old land

Every flower touched his cold hand

As he slowly walked by

Weeping willows would cry for joy

Joy

Feels so good

Feels so good it’s frightening

Wish I could

Stop this world from fighting

Mystery

Like this and many others

In the trees

 Blow in the night

In the southern skies

Southern nights

They feel so good it’s frightening

Wish I could

Stop this world from fighting

HOUSE BILL NO. 2

BY REPRESENTATIVE BISHOP

AN ACT

To provide with respect to the capital outlay budget and the capital outlay program for state government, state institutions, and other public entities; to provide for the designation of projects and improvements; to provide for the financing thereof making appropriations from certain sources; and to
provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. The changes in the following section thereof as may be necessary are hereby appropriated out of any monies in the state treasury from the sources specified, from federal funds and self-generated revenues belonging to the state of Louisiana and/or under control of, boards, commissions, departments, and agencies thereof, all for making capital outlay and for the purposes and in the amounts specified herein for the fiscal year 2021-2022, and ending June 30, 2022, subject to the conditions thereunder provided:

A project with funding payable from General Obligation Bonds Priority 1 indicates that the funding for the project includes the reauthorization of funding which had previously been authorized by the State Bond Commission in Fiscal Year 2020-2021. As used in this Section, the term “general obligation bonds” means state general obligation bonds or other evidences of indebtedness payable from the Bond Security and Redemption Fund. The general obligation bonds described in this project are not to be funded with the State Bond Commission, and state attorney general. No general obligation bond cash line of credit shall be granted to any lower priority project prior to the granting of general obligation bonds. Any project described herein as a project which is “general obligation bonds” except as hereinbefore provided. This prohibition against funding a lower priority project shall not apply upon a showing of an impossibility or impracticality either to proceed with all unfunded higher priority projects named in the project or to proceed with a project appropriation to the extent thereof through the issuance of general obligation bonds for any reason. Such showing shall be stated in reasonable detail in a certificate or certificates signed by the state agency responsible for administering the funding, and filed with the commissioner of administration and the State Bond Commission therewith, as a basis for determining that the project described in this section is best achieved through the issuance of general obligation bonds is impractical or impossible, the State Bond Commission may then proceed with the sale of general obligation bonds or the granting of cash line of credit with the approval of the appropriate department or agency by means of a certificate to that effect filed with the State Bond Commission, which then upon request of the commissioner of administration, may proceed with the sale of general obligation bonds or the granting of cash line of credit in accordance with the general rule. As to projects within a priority, the State Bond Commission acting on requests submitted by the commissioner of administration shall determine when such project, or phases thereof, shall be funded. In making such determination, the State Bond Commission may consider the following matters:

1. Whether the project is necessary to the state’s current fiscal year, but which will not require cash expenditures during the fiscal year.
2. Such non-cash lines of credit, when combined with previously sold bonds or with higher priority bonds or lines of credit, or with funds appropriated for award equipment or construction contracts. Contracts shall not be awarded without approval of the division of administration.

Upon recommendation by the State Bond Commission, and subject to compliance with its policies and procedures and the procedures set forth herein, the governor, acting on requests submitted by the commissioner of administration, may proceed with the sale of general obligation bonds or the granting of cash line of credit by the State Bond Commission.

Priority 1 general obligation bond projects are for the completion of plans and specifications, land acquisition, site preparation, or for construction which will begin during the fiscal year. It is presently anticipated that the projects described in Priority 1 of this Act shall be designated as a higher priority to the project. The matter then shall be submitted to and be subject to the same approval by the members of the legislature in the manner previously indicated in this Section. If such approval is granted, notification by the chair or secretary of the board of the change of priority shall be transmitted to the State Bond Commission, which then upon request of the commissioner of administration, may proceed with the sale of general obligation bonds or the granting of cash line of credit in accordance with the general rule. As to projects within a priority, the State Bond Commission acting on requests submitted by the commissioner of administration shall determine when such project, or phases thereof, shall be funded. In making such determination, the State Bond Commission may consider the following matters:

1. Whether the project is necessary to the state’s current fiscal year, but which will not require cash expenditures during the fiscal year.
2. Such non-cash lines of credit, when combined with previously sold bonds or with higher priority bonds or lines of credit, or with funds appropriated for award equipment or construction contracts. Contracts shall not be awarded without approval of the division of administration.

Upon recommendation by the State Bond Commission, and subject to compliance with its policies and procedures and the procedures set forth herein, the governor, acting on requests submitted by the commissioner of administration, may proceed with the sale of general obligation bonds or the granting of cash line of credit by the State Bond Commission.

Priority 1 general obligation bond projects are for the completion of plans and specifications, land acquisition, site preparation, or for construction which will begin during the fiscal year. It is presently anticipated that the projects described in Priority 1 of this Act shall be designated as a higher priority to the project. The matter then shall be submitted to and be subject to the same approval by the members of the legislature in the manner previously indicated in this Section. If such approval is granted, notification by the chair or secretary of the board of the change of priority shall be transmitted to the State Bond Commission, which then upon request of the commissioner of administration, may proceed with the sale of general obligation bonds or the granting of cash line of credit in accordance with the general rule. As to projects within a priority, the State Bond Commission acting on requests submitted by the commissioner of administration shall determine when such project, or phases thereof, shall be funded. In making such determination, the State Bond Commission may consider the following matters:

2. Such non-cash lines of credit, when combined with previously sold bonds or with higher priority bonds or lines of credit, or with funds appropriated for award equipment or construction contracts. Contracts shall not be awarded without approval of the division of administration.

Upon recommendation by the State Bond Commission, and subject to compliance with its policies and procedures and the procedures set forth herein, the governor, acting on requests submitted by the commissioner of administration, may proceed with the sale of general obligation bonds or the granting of cash line of credit by the State Bond Commission.

capital outlay plan. It is presently anticipated that the listed projects will not require the sale of bonds or extension of lines of credit during the fiscal year. Priority 3 general obligation bond funding shall be limited to funding for the portion of construction contracts which will not require cash expenditures during the fiscal year. These funds, when combined with previously sold bonds or with higher priority bonds on lines of credit, or with funds appropriated from other sources, will provide sufficient appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the award of these contracts.

In accordance with the cash management plan adopted pursuant to R.S. 46:251(D) and the provisions of Act 161 of the 1996 First Extraordinary Session, the Department of Transportation and Development is authorized to enter into contracts or agreements for projects approved pursuant to the Highway Priority Program, Airport Construction and Development Priority Program, Port Construction and Development Priority Program, and Statewide Flood Control Program for projects bid and awarded, authorized, or commenced during the fiscal year which do not require cash expenditures for the full contract or agreement amount.
