The right of an income beneficiary to income from property in trust arises

in consideration for the sale or other transfer of property forming a part of principal or as the replacement of property forming a part of principal. This provision attempts to provide the trustee with flexibility in allocating receipts and expenses and at the same time achieve consistency with the rules on successions and other provisions of the Louisiana Trust Code. See, e.g., Civil Code Article 1426 and R.S. 9:2151, 2152(A)(4), 2153(A), and 2154(A).

§2143. Allocation to beneficiaries of usufruct and naked ownership

A trust is administered with due regard to the respective interests of beneficiaries of usufruct and naked ownership in the allocation of receipts and expenditures for principal.

§2144. Apportionment of receipts when right to income arises

A. In the administration of property transferred in trust:

(1) Receipts in the form of periodic payments, other than corporate distributions to stockholders, that are allocable to an income interest in a juridical person under the provisions of this Subpart shall be treated as accruing at the time of payment.

(2) Receipts in the form of periodic payments, other than corporate distributions to stockholders, that are allocable to an income interest in a juridical person, not due on distribution of the receipt to a legacy in trust in accordance with the laws regulating donations mortis causa, are treated as accruing at the time of payment.

(3) Income in the form of periodic payments subject to daily accrual, other than corporate distributions to stockholders, that are allocable to an income interest in a juridical person, not due on distribution of the receipt to a legacy in trust in accordance with the laws regulating donations mortis causa, are treated as accruing at the time of payment.

(4) Corporate distributions to stockholders, that are allocable to an income interest in a juridical person, not due on distribution of the receipt to a legacy in trust in accordance with the laws regulating donations mortis causa, are treated as accruing at the time of payment.
(1) A trust or estate.
(2) A corporation, including a subsidiary, an affiliate, or any other business entity, including a partnership or a trust, including distributions from capital gains, depreciation, or depletion, whether in the form of cash or an option to take new stock or cash, or an option to purchase additional shares, are principal.
(3) Money received in one distribution or a series of related distributions in exchange for part or all of a trustor's interest in the trust, unless the obligation, when acquired, has a maturity of less than one year.
(4) Money received in partial liquidation, or may it be taken into account under Subsection C of this Section, to the extent that it does not exceed the amount of income tax that a beneficiary or owner must pay on taxable income of the juridical person that distributes the money.
(5) Income from the disposition of real property as principal and thus include all of the prior categories of property as principal.
(6) An amount received as interest, whether determined at a fixed, variable, or floating rate, on an obligation to pay money to the trustor, including an amount received in return for prepaying principal, shall be allocated to income without any provision for amortization of premium.

A. A trustor shall allocate to principal the proceeds of a life insurance policy.
B. A trustor shall allocate to income the proceeds of an obligation to pay money to the trustor, including an amount received in excess of its purchase price or its value when acquired by the trustor shall be allocated to income.
C. This Section does not apply to an obligation to which R.S. 2151.2, 2152, 2153, or 2154 applies.

Revision Comments - 2020
(a) This revision is based upon Section 406 of the UPIA (1997).
(b) This revision changes the law by providing that the entire increase in value of discount obligations is attributable to principal when the trustor redeems the bond or other obligation to pay money to the trustor more than one year after it is purchased or acquired by the trustor, including an obligation whose purchase price or value when it is acquired is less than its amortized cost. If the obligation matures within one year after it is purchased or acquired by the trustor, the entire increase in value of discount obligations is income.
(c) The Comments that accompanied the 1964 enactment of this provision, which are superseded by the 2020 Revision Comments, appear in Acts 1964, No. 338.

§2151. Business operations. Sole proprietorship
A. If a trustor uses any part of the principal in the operation of a business in which, as trustor, he is a proprietor or a partner, the proceeds and losses of the business The receipts and expenses of a sole proprietorship shall be allocated in accordance with what is reasonable and equitable in view of the interests of those entitled to income as well as of those entitled to principal; and in view of the manner in which men of ordinary prudence, discretion, and intelligence would act in the management of their own affairs.

Revision Comments - 2020
(a) This revision modifies existing law to make clear that this provision applies only to a trustor's operation of a sole proprietorship. The operation of other business forms is treated in R.S. 9:2149.
(b) This Section is inapplicable to any other business entity, including a partnership or a trust, including distributions from capital gains, depreciation, or depletion, and the term “proceeds,” as used in this Section, refers to the insurable benefit under the enrolled bill.
such as interest.

§2151.2. Deferred compensation, annuities, and similar payments

A. If part of the principal consists of a right to receive royalties or other payments, the proceeds from these payments shall be allocated to principal until such time as the cost for such interest (including any factor for interest or its equivalent) shall have been fully recovered, thereafter.

B. This Section applies whether or not a decedent or donor was extracting minerals from immovable property, or other interests in oil, gas, or other minerals, the allocation of the proceeds of such interests shall be made as follows:

(1) If received as a delay rental on a lease, extension of payments on a lease, or bonus, a receipt shall be allocated in accordance with what is reasonable and equitable if ninety percent is allocated to principal and ten percent to income.

(2) If received from a production payment, a receipt shall be allocated to income if and to the extent that the agreement creating the production payment provides a factor for interest or its equivalent. The balance shall be allocated to principal.

C. If received as a royalty, overriding royalty, shut-in payment, take-or-pay payment, or bonus, a receipt shall be allocated in accordance with what is reasonable and equitable if ninety percent is allocated to principal and ten percent to income. Any other allocation shall not be presumed to be unreasonable or inequitable.

E. This Section is not applicable to timber, water, soil, sod, dirt, turf, mosses, shells, gravel, or other natural resources.

Revision Comments - 2020

(a) This provision is based, in part, on Section 409 of the UIPA (1997) and informed by statutes from other states that have modified Section 409 of the UPIA. To comply with the IRS’s safe harbors, as 10% of a required minimum distribution is not provided for in this Subsection, a receipt shall be allocated in accordance with what is reasonable and equitable in view of the interests of those entitled to income as well as of those entitled to principal.

(b) This Section applies whether or not a decedent or donor was extracting minerals from immovable property, or other interests in oil, gas, or other minerals, the allocation of the proceeds of such interests shall be made as follows:

(1) If received as a delay rental on a lease, extension of payments on a lease, or bonus, a receipt shall be allocated in accordance with what is reasonable and equitable if ninety percent is allocated to principal and ten percent to income.

(2) If received from a production payment, a receipt shall be allocated to income if and to the extent that the agreement creating the production payment provides a factor for interest or its equivalent. The balance shall be allocated to principal.

(3) If received as a royalty, overriding royalty, shut-in payment, take-or-pay payment, or bonus, a receipt shall be allocated in accordance with what is reasonable and equitable if ninety percent is allocated to principal and ten percent to income. Any other allocation shall not be presumed to be unreasonable or inequitable.

(4) If an amount is received from a working interest or any other interest not provided for in this Subsection, a receipt shall be allocated in accordance with what is reasonable and equitable in view of the interests of those entitled to income as well as of those entitled to principal.

(c) Paragraph (A)(1) applies only to certain types of deferred compensation, phantom stock plans, and similar plans whose terms characterize a payment as dividends or interest. It does not apply to individual retirement accounts and similar arrangements. Paragraph (A)(2) applies to required payments from an IRA or similar arrangement.

(d) Paragraph (A)(2) of this Section differentiates between payments that are required to be made and all other payments. To the extent that a payment is required to be made (either under federal income tax rules, or in the case of a plan that is not subject to those rules, under the terms of the plan), 10% of the amount received is allocated to income and the balance to principal. The right to receive payments under this Paragraph is a type of liquidating asset and therefore is treated similarly to property subject to depletion under R.S. 9:2154.

(3) If received from a working interest or any other interest not provided for in this Subsection, a receipt shall be allocated in accordance with what is reasonable and equitable in view of the interests of those entitled to income as well as of those entitled to principal.

(4) If an amount is received from a working interest or any other interest not provided for in this Subsection, a receipt shall be allocated in accordance with what is reasonable and equitable in view of the interests of those entitled to income as well as of those entitled to principal.

(5) The trust property includes an interest in mineral rights or other interest in oil, gas, or other minerals on the effective date of this Act, the trustee may allocate receipts from the interest as provided in this Section or in any manner permitted by the trust instrument, or, if the trust instrument does not provide for income or principal, the trustee may allocate receipts from the interest as provided in this Section.

(6) A receipt of a receipt under this Section is presumed to be reasonable and equitable if ninety percent is allocated to principal and ten percent to income. Any other allocation shall not be presumed to be unreasonable or inequitable.

E. This Section is not applicable to timber, water, soil, sod, dirt, turf, mosses, shells, gravel, or other natural resources.
and equitable if ninety percent is allocated to principal and ten percent to income. Any other allocation shall not be presumed to be unreasonable or inequitable.

Revision Comments - 2020
(a) This revision updates the language but maintains the “reasonable and equitable” standard. Like R.S. 9:2152, Subsection B adopts a safe harbor providing that an allocation of ninety percent to principal and ten percent to income is presumed to be reasonable and equitable but at the same time being clear that other allocations are not necessarily unreasonable or inequitable. It also deletes the “prudent man” rule that existing under prior law because persons of “ordinary prudence, discretion, and intelligence” do not generally consider the interests of successor beneficiaries in managing their own affairs. See, e.g., UPIA (1997) §103, Comment. (b) This Section is consistent with the principles of Louisiana property law that generally treat trees as capital assets rather than fruits. In some instances, however, trees in a tree farm or in a regularly exploited forest must be treated as fruits. See, e.g., Civil Code Article 551, Comment (b).
(c) The Comments that accompanied the 1964 enactment of this provision, which are superseded by the 2020 Revision Comments, appear in Acts 1964, No. 338.
§2154. Other property subject to depletion
A. Except as provided in R.S. 9:2152 and 2153, if the principal consists of property subject to depletion, receipts from the property not in excess of five percent of its inventory value are income, and the balance is principal. The receipts shall be allocated in accordance with what is reasonable and equitable in view of the interests of those entitled to income as well as those entitled to principal.
B. An allocation of a receipt under this Section is presumed to be reasonable and equitable if ninety percent is allocated to principal and ten percent to income. Any other allocation shall not be presumed to be unreasonable or inequitable.

Revision Comments - 2020
(a) This revision updates the law to make the depletion allowance consistent with the “reasonable and equitable” standard in R.S. 9:2152. Like R.S. 9:2152 and 2153, Subsection B adopts a safe harbor providing that an allocation of ninety percent to principal and ten percent to income is presumed to be reasonable and equitable but at the same time being clear that other allocations are not necessarily unreasonable or inequitable.
(b) The Comments that accompanied the 1964 enactment of this provision, which are superseded by the 2020 Revision Comments, appear in Acts 1964, No. 338.

§2160. Charges
A. The following charges shall be made against income:
(1) Ordinary expenses incurred or accrued in connection with the administration, management, or preservation of the trust property.
(2) A reasonable allowance for depreciation on property subject to depreciation, but no allowance shall be made for depreciation of that portion of immovable property used by a beneficiary as a residence.
(3) One-half of court costs, attorneys' fees, and other fees on periodic accounting, unless the court directs otherwise.
(4) Court costs, attorneys' fees, and other fees on other accountings or judicial proceedings if the matter primarily concerns the principal interest, unless the court directs otherwise.
(5) Expenses reasonably incurred by the trustee for the management and application of income.
(6) Interest accrued on an indebtedness.

B. The following charges shall be made against principal:
(1) Extraordinary expenses incurred or accrued in connection with the administration, management, or preservation of the trust property.
(2) Expenses incurred in making a capital improvement to principal, including special taxes and assessments.
(3) Expenses incurred in investing and reinvesting principal.
(4) One-half of court costs, attorneys' fees, and other fees on periodic accounting, unless the court directs otherwise.
(5) Court costs, attorneys' fees, and other fees on other accountings or judicial proceedings if the matter primarily concerns the principal interest, unless the court directs otherwise.
(6) Expenses incurred in maintaining or defending an action to construe the trust or to protect the trust or the trust property.
(7) One-half of the trustee's regular compensation, whether based on a percentage of principal or income.
(8) All taxes and assessments.
(9) A tax levied upon profit, gain, or other receipts allocated to principal notwithstanding denomination of the tax as an income tax by the taxing authority.
(10) The amount of an estate tax apportioned to the trust, including interest, estate, and inheritance taxes.
(11) The principal of an indebtedness.
(12) All other expenses not chargeable to income.

E. Regularly recurring charges shall be apportioned to the same extent and in the same manner that receipts are apportioned under R.S. 9:2145 through 2147.

Revision Comments - 2020
This Section deviates from Sections 501, 502, and 504 of the UPIA (1997). Paragraph (A)(2) of the prior law regarding depreciable property has been deleted in favor of a new provision, R.S. 9:2156.1, which is based upon Section 503(c) of the UPIA. Paragraphs (A)(7) and (C)(9) of the prior law regarding allocation of taxes have been deleted in favor of a new provision, R.S. 9:2156.2. Paragraph (C)(12) of the prior law, which allocated to principal all expenses not otherwise allocated to income, has also been deleted in light of the revision to the trust normally receives a deduction for amounts distributed to a beneficiary. The revision now contained in R.S. 9:2152.1.

§2156.1. Transfers from income to principal for depreciation
A trustee may transfer to principal a reasonable amount of the net cash receipts from a principal asset that is subject to depreciation but may not transfer any amount for a reduction during the administration of a trust in the value of the principal asset. If the net cash receipt from a principal asset that is subject to depreciation is distributed as income to a beneficiary, the trustee is presumed to be treating the trust as an estate "prudent man," unless the court directs otherwise.

Revision Comments - 2020
(a) This Section is based upon Section 503(a) of the UPIA (1997). Under Section 503(a) of the UPIA and this Section, the term “depreciation” means a reduction in value due to tear, decay, corrosion, or gradual obsolescence of a fixed asset having a useful life of more than one year.
(b) Under this revision, a transfer to principal for depreciation is discretionary with the trustee. Prior law provided that a charge shall be made against income for “… a reasonable allowance for depreciation under generally accepted accounting principles…” That provision was resisted by the taxing authorities and provided for a reduction in the value of the principal asset. One reason relied upon was that a charge for depreciation was not needed to protect the beneficiaries if the value of the land was increasing; another was that generally accepted accounting principles might not require depreciation to be charged to income. One reason related upon was that a charge for depreciation was not needed to protect the beneficiaries if the value of the land was increasing; another was that generally accepted accounting principles might not require depreciation to be charged to income. Under this revision, the trustee has discretion similar to the prior law, to transfer from income to principal the amount of depreciation that is reasonable and equitable. The trustee may also transfer income to principal. The trustee may transfer income to principal to protect the beneficiary as a residence or of corporeal movables held or made available for the personal use or enjoyment of a beneficiary. An amount transferred to principal need not be held as a separate fund.

§2156.2. Income taxes
A. A tax required to be paid by a trustee based on receipts allocated to income at the time the receipts were made shall be apportioned to principal.
B. A tax required to be paid by a trustee based on receipts allocated to principal shall be paid from principal, even if the tax is denominated an income tax by the taxing authority.
C. A tax required to be paid by a trustee on the trust's share of a juridical person's taxable income shall be paid as follows:
(1) From income to the extent that receipts from the juridical person are allocated only to income.
(2) From principal to the extent that receipts from the juridical person are allocated only to principal.
(3) Proportionately from principal and income to the extent that receipts from the juridical person are allocated to both income and principal.
(4) From principal to the extent that the tax exceeds the total receipts from the juridical person.

Revision Comments - 2020
After applying the provisions of this Section, the trustee shall adjudge income or principal receipts to the extent that the trust's taxes are reduced because the trust receives a deduction for payments made to a beneficiary.

§2164. Unproductive property
If a marital deduction is allowed for all or part of a trust whose assets consist substantially of property that does not provide the spouse with sufficient income from or use of the trust assets, and the amounts that the spouse could have received if the trust were not established, were to the spouse from principal pursuant to the terms of the trust are insufficient to provide the spouse an interest required to obtain the marital deduction, the spouse may require the trustee to make property productive of income. The spouse may only require the trustee to make property productive of income if the property is not generally considered to be unproductive of income. Any such requirement must be reasonable and equitable. The revision now contained in R.S. 9:2158.

Revision Comments - 2020
(a) This revision is based upon Section 413(a) of the UPIA (1997).
(b) R.S. 9:2127 provides that “[a] trustee’s investment and management decisions are to be evaluated in the context of the trust property as a whole... The law in prior R.S. 9:2135 gave the income beneficiary a right to receive a portion of the proceeds from the sale of underproductive property as “delayed income.” This provision applied on an asset-by-asset basis and not by taking into consideration the trust portfolio as a whole and thus conflicts with the basic precept in R.S. 9:2127. Moreover, in determining the amount of delayed income, the prior law did not permit the trustee to take into account the extent to which the trustee may have distributed principal to the income beneficiary, under principal invasion provisions in the terms of the trust, to compensate for insufficient income from the unproductive asset. Under R.S. 9:2135, a trustee must consider prior distributions of principal to the income beneficiary in deciding whether and to what extent to exercise the power to adjust.

(c) Although this revision abolishes the right to receive delayed income, it allows an income beneficiary a right to compel the trustee to keep the unproductive asset invested in property productive of income. The duty to make property productive of income should be determined by taking into consideration the performance of the portfolio as a whole and the extent to which a trustee makes principal distributions to the income beneficiary under the terms of the trust and adjustments between principal and income under R.S. 9:2156.

(d) Under this revision, once the surviving spouse makes an appropriate demand that the trustee take action, the trustee must decide whether to make property productive of income, convert it, transfer funds from principal to income, or take some combination of those actions.

Section 2. R.S. 9:2155 and 2157 are hereby repealed in their entirety.

Section 3. The existing Comments to R.S. 9:2148 through 2154 are superseded by the Comments appearing beneath those Sections in this Act. The Louisiana State Law Institute is hereby directed to remove the existing Comments and to print only the Comments appearing in this Act.

Section 4. The Louisiana State Law Institute is hereby directed to redesignate Subpart F of Part V of Chapter 1 of Code Title II of Code Book III of Title 9 of the Louisiana Revised Statutes of 1950, entitled “THE TRUSTEE’S BOND,” as Subpart G of Part V of Chapter 1 of Code Title II of Code Book III of Title 9 of the Louisiana Revised Statutes of 1950, and to retain the heading of this Subpart.

Section 5. The provisions of this Act shall become effective on January 1, 2021. Except as specifically provided in this Act or in the provisions of the trust, the provisions of this Act apply to trusts existing as of the effective date of this Act.

Approved by the Governor, June 4, 2020.

ACT No. 18

BY REPRESENTATIVE GREGORY MILLER
(On Recommendation of the Louisiana State Law Institute)

AN ACT

To amend and reenact Civil Code Articles 897, 1495, and 1505(A) and (B) and Code of Civil Procedure Articles 2952 and 3396.18(A), to enact Civil Code Article 1495.1, and to repeal Part 1 of Chapter 4 of Title 9 of the Louisiana Revised Statutes of 1950, comprised of R.S. 9:2401, relative to successors; to modernize terminology; to provide for the calculation of the legitime; to provide for the calculation of the active mass of a succession; to provide for the independent administration of a succession; to provide for the sealing of a detailed descriptive list in a succession without administration; to retain the Uniform Will's Act and applicable Code for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. Civil Code Articles 897, 1495, and 1505(A) and (B) are hereby amended and reenacted and Civil Code Article 1495.1 is hereby enacted to read as follows:

Art. 897. Ascendant’s right to inherit immovables donated to descendant. Descendants, to the exclusion of all others, inherit the immovables given by them to their children or their descendants of a more remote degree who died without posterity, descendants, when these objects are found in the succession.

If these objects have been alienated, and the price is yet due in whole or in part, the ascendants have the right to receive the price. They also succeed to the right of reversion on the happening of any event which the child or descendant may have inserted as a condition in his favor in disposing of those objects.

Revision Comments - 2020

The term “posterity” as used in the first paragraph of Article 897 has been replaced with the term “descendants,” as “posterity” is no longer defined in the Civil Code. Under the Civil Code of 1870, the term “posterity” was defined to mean “all the descendants in the direct line.” Article 3556(24)(1870). It was deleted in 1999.

Art. 1495. Amount of forced portion and disposable portion.
Donations inter vivos and mortis causa may not exceed three-fourths of the property of the donor if he leaves, at his death, one forced heir, and one-half if he leaves, at his death, two or more forced heirs. The portion reserved for the forced heir is called the forced portion and the remainder is called the disposable portion.

Nevertheless, if the fraction that would otherwise be used to calculate the legitimate is greater than the fraction of the decedent’s estate to which the forced heir would succeed by intestacy, then the legitimate shall be calculated by using the fraction of an intestate successor.

Art. 1495.1. Calculation of the legitime.
To determine the legitime of a forced heir when all forced heirs are of the first degree, the division of the forced portion is made by heads.

When representation occurs for purposes of forced heirship, the division is made by roots among those qualifying as forced heirs or being represented. Within each root, any subdivision is also made by roots in each branch, with those qualifying as forced heirs by representation taking by heads.

If there is a forced heir who would otherwise be entitled to a fraction that is greater than the fraction of the decedent’s estate to which the forced heir would succeed by intestacy, then the legitimate shall be calculated by using the fraction of an intestate successor.

Revision Comments - 2020

(a) This Article provides a definitive statement as to how to calculate an individual forced heir’s legitime. In that vein, it should be read in conjunction with Article 1495, which provides the method of calculation of the forced portion, i.e., the amount to which all forced heirs are collectively entitled.

(b) The first paragraph of this Article is applicable when all forced heirs are forced heirs of the first degree. When one or more forced heirs is a forced heir by representation, the second paragraph specifies the method by which the legitime is calculated. Both the first and the second paragraphs of this Article are subject to the limits and adjustments contained in the third paragraph.

(c) The second paragraph of this Article closes a gap that has long existed in Louisiana law, namely, how to calculate the legitime of a forced heir grandchild. Under this Article, the forced portion is initially calculated by assessing the number of descendents who are forced heirs in their own right...
or who are forced heirs by virtue of being represented by their descendants. The
title is then calculated by roots and within each root by heads, but only
among those who qualify as forced heirs by representation. Descendants
of those who are treated as forced heirs under this Article but do not
themselves qualify as forced heirs by representation are not considered
purposes of calculation of the title. By way of example, A may have two
predeceased children B and C, neither of whom qualified as a forced heir in
his own right. B has a child D, who is a forced heir by representation, and C
has three children, E, F, and G, but only E and F qualify as forced heirs by
representation. Under this example, the calculation of the forced portion
would be made at the generational level of B and C because B and C are
both represented by forced heirs although neither B nor C is a forced heir
in his own right. Consequently, the forced portion would be \( \frac{1}{2} \). B's root (or
his \( \frac{1}{4} \) share) would be distributed to D, his child who is a forced heir by
representation. C's root (or his \( \frac{1}{4} \) share) would be divided equally between
E and F, but not G, as E and F are the only forced heirs by representation in
C's root.

(d) The third paragraph of this Article specifies the limitation commonly
explained in the Comments to Article 1495 to this Article. This revision has not disturbed its applicability in the ordinary
case where the legitimate share of a forced heir of the first degree is reduced
to an intestate share. Rather, this Article clarifies that the Greenlaw rule is
also applicable to the share of a forced heir by representation and may,
in some instances, serve to reduce the legitimate fraction of a forced heir by
representation to that of an intestate successor. Whenever the Greenlaw
rule applies, the reduction in the fraction used to calculate the legitimate of
a forced heir correspondingly reduces the overall forced portion to which all
of the forced heirs are collectively entitled.

Art. 1505. Calculation of disposable portion on mass of succession
A. To determine the reduction to which the donations, either inter vivos or
mortis causa, are subject, an aggregate is formed of all property belonging
to the donor or leasor at the time of his death; the sums due by the estate
are deducted from this aggregate amount; to that is added back the property disposed of by donation inter vivos within three years of the date of
the donor's death, according to its value at the time of the donation.

B. The sums due by the estate are deducted from this aggregate amount, and
the disposable quantity is determined on the balance above calculation, taking into consideration the number of forced heirs.

Revision Comments - 2020
This revision corrects a mistake that has long existed in Louisiana law regarding the calculation of the mass of the succession for purposes of forced
heirship. Paragraph A of the prior version of Article 1505 declared that in
ascertaining the reduction to which donations are subject, an aggregate is
formed of all of the decedent's property and certain donations inter vivos
are fictitiously added. Paragraph B then provided that the "sums due by the
circuit" were to be subtracted from the aggregate amount formed in Paragraph
A. This language was derived from Article 922 of the French Civil Code, which has been characterized as "not clearly expressing the intention of the legislation." Aubry & Rau, Droit Civil Francais: Testamentary Successions and
Gratuitous Dispositions § 664 n.15. Specifically, the order of calculation
suggested by the prior version of Article 1505 proved problematic in instances
in which the value of the property left at death is less than the debts. In such a
case, the value of debts must be subtracted prior to adding fictitiously certain
donations inter vivos. After all, "the sum that the donees are permitted to
keep can [not] be affected by the payment of the debts[] because creditors
cannot profit by the reduction ..." Id. See also Philippe Malaurie et Claude
Brenner, Droit des Successions et des Libérabilités 431 (8th ed. 2018). The
current revision makes clear that the proper method of computing the
succession mass is to deduct the debts of the succession from the aggregate
of the extant property. Only after the "net estate" is calculated does one
"fictitiously add[] the property disposed of by donation inter vivos within
three years of the date of the donor's death, according to its value at the
time of the donation." Article 1505(A). In light of the above, it should also be clear
that when the decedent's estate is insolvent and the amount of debts exceeds
the assets, the "net estate" is considered to be zero, and the succession mass
for forced heirship purposes is based solely upon the donations inter vivos
that are fictitiously added back. See Malaurie et Brenner, supra, at 431.

Section 2. Code of Civil Procedure Articles 2952 and 3396.1A are hereby amended and reenacted to read as follows:
Art. 2952. Descriptive list of property, if no inventory
A. The provisions of the property disposed of by the donor shall be filed in the succession proceeding a detailed descriptive list, sworn to and subscribed by him, of all items of property
composing the succession of the deceased, stating the actual cash
value of each item at the time of the death of the deceased.
B. A detailed descriptive list shall be sealed upon the request of an heir
or legatee.

C. If the detailed descriptive list is sealed, a copy shall be provided to
the decedent's universal successors and surviving spouse. Upon motion of any
successor or surviving spouse, or on execution by the court, it may furnish
relevant information contained in the detailed descriptive list regarding
assets and liabilities of the estate.

Revision Comments - 2020
This revision extends the procedure adopted in 2017 in the context of
independent administration to successions in which an heir is sent into
possession without an administration of the succession. For the reasons explained in the Comments to Article 3396.1B, the detailed descriptive list
may be filed under seal.

Art. 3396.1B. Inventory or sworn descriptive list
A. Before the succession can be closed, a judgment of possession rendered, and
the independent administrator discharged, there must be filed an
inventory or sworn detailed descriptive list of assets and liabilities of the

Comments - 2020
This revision clarifies the law by stating that the rendition of a judgment of possession is still necessary even when a succession is
independently administered. The 2017 amendments did not intend to repeal
the requirement of a judgment of possession, even though independent
administrators have "all the rights, powers, authorities, privileges, and
duties of a succession representative provided in Chapters 4 through 12" of
Title II of Book VI of the Louisiana Code of Civil Procedure. See Article
3396.15. Nothing in this Article affects the rendition of a partial judgment
of possession pursuant to Articles 3362 or 3372.

Section 3. Part I of Chapter 4 of Title 9 of the Louisiana Revised Statutes of
1950 is hereby repealed in its entirety.

However, this Paragraph shall not apply if the second or subsequent arrest occurs more than ten years after the prior arrest. The department's records of arrests made for operating a vehicle while intoxicated, as certified by the arresting officer pursuant to R.S. 32:666(B), shall be used to determine the application of the provisions of this Paragraph. In the event the suspension arising out of such arrest has been reversed or recalled including any reversal or recall as a result of an administrative hearing or judicial review, then that arrest related to the second or subsequent arrest shall be used to determine whether this Paragraph applies to a driver's license reinstatement.

I(1) In addition to any other provision of law, an ignition interlock device shall be installed in any motor vehicle operated by any of the following persons whose driver's license has been suspended in connection with the following circumstances as a condition of the reinstatement of such person's driver's license:

(a) Any person who has refused to submit to an approved chemical test for intoxication, after being requested to do so, for a second arrest of R.S. 14:98 or § 98.6; or

(b) Any person who is arrested for a violation of R.S. 14:98, § 98.6, or a parish or municipal ordinance that prohibits operating a vehicle while intoxicated, and is involved, as a driver, in a traffic crash which involves moderate bodily injury or serious bodily injury as defined in R.S. 32:666(A).

(d) Any person who is arrested for a violation of R.S. 14:98, § 98.6, or a parish or municipal ordinance that prohibits operating a vehicle while intoxicated and whose driver's license has been suspended in accordance with law.

(c) Any person who is arrested for a violation of R.S. 14:98, § 98.6, or a parish or municipal ordinance that prohibits operating a vehicle while intoxicated, and is involved, as a driver, in a traffic crash which involves moderate bodily injury or serious bodily injury as defined in R.S. 32:666(A).

§666. Refusal to submit to chemical test; submission to chemical tests; exception; effects of

(A) When a law enforcement officer has probable cause to believe that a person has violated R.S. 14:98, § 98.6, or any other law or ordinance that prohibits operating a vehicle while intoxicated, that person may not refuse to submit to a chemical test or tests if he has refused to submit to such test or tests on two previous and separate occasions of any previous such violation or in any case wherein a fatality has occurred or a person has sustained serious bodily injury in a crash involving a motor vehicle, aircraft, watercraft, vessel, or other means of conveyance. Serious bodily injury means bodily injury which involves unconsciousness, protracted and obvious disfigurement, or protracted and obvious impairment of the function of a bodily member, organ, or mental faculty, or a substantial risk of death. The law enforcement officer shall direct that a chemical test or tests be conducted of a person's blood, urine, or other bodily substance, or perform a chemical test of such person's breath, for the purpose of determining the alcoholic content of his blood and the presence of any abused substance or controlled substance as set forth in R.S. 40:964 in his blood in such circumstances. The officer may direct a person to submit to a breath test, and if indicated, an additional blood test for the purpose of testing for the presence of alcohol, abused substances, and controlled substances in a substance of any such test or tests shall result in the suspension of driving privileges as provided by the provisions of this Act. A physician, physician assistant, registered nurse, licensed practical nurse, emergency medical technician, chemist, nurse practitioner, or other qualified technician shall perform the chemical test in accordance with the provisions of R.S. 32:664 when directed to do so by a law enforcement officer.

(B) (3) In all cases where a person is under arrest for a violation of R.S. 14:98, § 98.6, or other law or ordinance that prohibits operating a vehicle while intoxicated who refuses to submit to a chemical test or tests if he has refused to submit to a chemical test on two previous and separate occasions of any such violation shall be advised that the consequences of such refusal shall be subject to criminal penalties under the provisions of R.S. 14:98.6, 14:98.7.

In addition, no insurer shall require that such coverage be provided by another insurer based solely upon such a lapse in coverage.

$1964. Methods, acts, and practices which are defined as unfair or deceptive.

The following are declared to be unfair methods of competition and unfair or deceptive acts or practices in the business of insurance:

BY REPRESENTATIVE MAGEE

To enact R.S. 24:515.2, relative to the legislative auditor; to require the legislative auditor to develop a uniform, standardized format for certain audit reports; to provide relative to the audit reports of local and state auditees that assess, collect, or receive revenue from pre- or post-adjudication court costs, fines, and fees; to provide for the duties and authority of the legislative auditor and the Louisiana Supreme Court in this regard; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. R.S. 24:515.2 is hereby enacted to read as follows:

§ 515.2. Uniform audit reporting for court costs, fines, and fees

A. The legislature hereby recognizes that the reporting of court costs, fines, and fees is fragmented and does not provide a comprehensive picture of certain judicial finances and the costs of operating the judicial system. Therefore, it is the intent of the legislature in the interest of the public to require the legislative auditor by generally accepted auditing standards, to develop a uniform format for audit reports for all local and state auditees that assess, collect, or receive revenue from pre- or post-adjudication costs, fines, and fees, and which requires the reporting of certain information that helps to provide a more complete and accurate understanding of the types of costs, fines, and fees that are assessed, the amounts of the assessments, how the assessed amounts are collected and disbursed, and the cost of collecting the assessed amount.

B. In order to fulfill the purposes of this Section, the legislative auditor and the Louisiana Supreme Court shall require that such uniform audit reports for the auditees described in Subsection A of this Section include, at a minimum, the amounts of all pre- and post-adjudication court costs, fines, and fees assessed or imposed; the amounts collected; the amounts outstanding; the amounts retained; the amounts disbursed; and the amounts received from disbursements.

C. The legislative auditor, jointly with the Louisiana Supreme Court, shall develop, supervise, and require the use of uniform, standardized, and consistent terminology for use in reporting on pre- and post-adjudication court costs, fines, and fees in order to provide for clarity.

D. Notwithstanding any provision of law to the contrary, local and state auditees described in Subsection A of this Section shall commence to use the uniform audit reporting format developed by the legislative auditor pursuant to the provisions of this Section by the end of Calendar Year 2020 for such local and state auditees on a calendar year schedule, or Fiscal Year 2020-2021 for such local and state auditees on a fiscal year schedule. The legislative auditor, jointly with the Louisiana Supreme Court, shall develop reporting schedules to assist such local and state auditees with standardized and uniform reporting requirements as provided for in this Section. Such reporting schedules shall be deposited with the legislative auditor.

E. The legislative auditor shall review the reporting schedules on an annual basis and shall provide to the reporting schedules, jointly with the Louisiana Supreme Court, as circumstances deem necessary.

ACT No. 105

HOUSE BILL NO. 434
BY REPRESENTATIVE HILFERTY
AN ACT

To enact R.S. 14:31(A)(3), relative to homicide; to provide relative to manslaughter; to provide relative to a continuous sequence of events resulting in the death of a human being; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. R.S. 14:31(A)(3) is hereby enacted to read as follows:

§31. Manslaughter
A. Manslaughter is:

(3) When the offender commits or attempts to commit any crime of violence as defined by R.S. 14:2(B), which is part of a continuous sequence of events resulting in the death of a human being where it was foreseeable that the offender’s conduct during the commission of the crime could result in death or great bodily harm to a human being, even if the offender has no intent to kill or to inflict great bodily harm. For purposes of this Paragraph, it shall be immaterial whether or not the person who performed the direct act resulting in the death was acting in concert with the offender.

Section 2. Official Comment to the Law: Since State v. Garner, 238 La. 563, 115 So.2d 855 (1959), Louisiana law has espoused the “agency” theory of liability for felony murder and felony manslaughter, whereby an individual is criminally liable for a killing only if the direct act of killing was committed either by the individual himself or by one acting in concert with the individual. As such, this has left open the possibility that an individual may, by committing a serious crime, set into motion a sequence of events proximately causing the death of an innocent person, and yet elude justice because the direct act of killing is committed by one acting adverse to or otherwise not in concert with the individual. These new provisions of law fill the gap left by Garner and its progeny so as to allow such malefactors to be appropriately held accountable for the consequences of their actions while in no way abrogating, altering, restricting, or limiting criminal liability under their existing law relative to felony murder or felony manslaughter or under any other existing law.
